CERTIFICATES

- **McKinsey.org Forward Program - McKinsey & Company**
- **Project Management - IBM**

LANGUAGES

- **Arabic (**Native**)**
- **French (**Fluent**)**
- **English (**Fluent**)**

PROFILE

With a bachelor's degree in application development, I am proficient in the MEAN stack (MongoDB, Express.js, Angular, Node.js) for creating modern and high-performance web applications. I also have knowledge in AI chatbot integration, Linux administration, and graphic design, and I am continually seeking to take on new technical challenges.

PROFESSIONAL EXPERIENCE

- **Frontend Development of an E-commerce Platform – Angular** July - September 2025

  Avatech Tools - Malaga

  Designed the user interface for the Naaora e-commerce platform, including the store setup process, customizable templates, and product catalog management.

- **Development of a B2B Marketplace Platform with AI Chatbot Integration - MEAN Stack** April - June 2025

  Smart Automation Technologies (SAT) - Tangier

  Created a B2B marketplace for the optimized management of services and e-services, implemented with the MEAN stack (MongoDB, Express.js, Angular, Node.js). The project focused on integrating a RAG chatbot for intelligent interaction.

PROJECTS

- **Blog Website – MEAN Stack**

  Personal Project

  Created a complete web system for blog management and narrator moderation, using the MEAN stack (MongoDB, Express.js, Angular, Node.js).

- **Development of an Event Management Web Application - React/Laravel / MySQL**

  Academic Project

  A complete event management platform (events, registrations, profiles) developed with a RESTful API in Laravel and a front-end in React.

SKILLS

- **Frameworks & Librairies Front-end:** Angular, React, ExpressJs, Laravel, Flask, Bootstrap, Tailwind CSS, PrimeNG
- **Programming & Web Languages:** C/C++, Java, Python, Javascript, Typescript, PHP, HTML5, CSS3
- **Additional Technologies :** Git, GitHub, Adobe (Photoshop, Illustrator), Postman, Figma
